A one-page abstract is to be prepared similarly to this sample, on an A4 size paper with 25 mm margins. Type the text with single line spacing, using a serif font such as Times or Times New Roman, 12 pt in size and in plain style throughout, except for the title (14 pt, boldface). Capitalize only the first word in the title. Centre-adjust the title, the list of authors and their affiliations. Indicate the corresponding author by an asterisk, and give his/her e-mail address and telephone number in footnote. Do not type anything in the margins.

The length of the abstract must be 200 to 300 words. Both American and British spelling are accepted, but please be consistent throughout. Paragraphs are to be separated by a blank line. No indent is needed at the beginning of each paragraph.

If desired, indicate references by sequential numbers in square brackets, e.g., [1], [2-3], and give their bibliographic information at the end of the text. Figures and tables may be included but not recommended. They must have a self-explanatory caption. Colour figures, if used, should be prepared in such a way that it does not lose information when printed in greyscale.

Prepare a PDF file of your abstract and send it by e-mail to isss2014@tsujilab.mtl.kyoto-u.ac.jp by 15 June 2014. Acceptance of presentation will be notified to the corresponding author by 1 August 2014.
